

## Why adopt the DEG standard?

Your documents are at the very heart of your brand, we understand that it is vital that they promote your unique values and standards. Of course, you need to ensure that your clients recognise your individual identity, but they also value consistency in style and format when receiving your document. They should be able to recognise them instantly and value them for their ease of use. Documents also need to be used in collaboration with clients and other law firms and that's where we believe adopting the DEG standard style structure and naming convention can make a huge difference. Why not join the growing group of leading law firms and publishers who have adopted DEG as their gold standard for structuring and naming their styles?

## Benefits of Standard Styles

	Meaningful names		Numbered headings and numbered paragraphs
	No restart numbering		Improved collaboration
	Separate Schedule numbering		Less training
